Rokesh Govindaraj

Chennai, Tamil Nadu, India | +91 9943719312 | roga719@gmail.com | linkedin.com/in/rokesh-g-878868255

Professional Summary

Results-driven **Flutter Developer** with **2+ years of hands-on experience** developing, scaling, and deploying high-performance cross-platform mobile apps for Android and iOS using Flutter and Dart. Strong technical expertise in reactive state management (**Provider, GetX**), REST API integration with Dio/HTTP interceptors, Firebase ecosystem, secure JWT authentication with refresh token rotation, and payment gateways (**Cashfree, Apple IAP**). Proven track record across 4 live production apps in AI collaboration, telemedicine, and hyperlocal logistics.

Work Experience

Doubletap Innovations and Technologies Pvt. Ltd. Chennai, Tamil Nadu
Mobile App Developer — Full-Time *Dec 2025 – Present*

- Architect and engineer scalable cross-platform mobile applications for Android and iOS adhering to Material 3 and Apple HIG.
- Manage app state and isolate business logic using the **Provider** pattern with clean, maintainable architecture.
- Integrate **Cashfree Payment Gateway** for online transactions, subscription checkouts, and secure verification.
- Implement secure **JWT authentication with automated refresh token rotation** and REST APIs with HTTP interceptors.
- Integrate **Google Maps API** and geolocation services; resolve Android (Gradle) and iOS (Xcode, CocoaPods) build constraints.
- Maintain source code, feature branching workflows, pull requests, and code reviews using **Git** and **GitHub**.

Relie Tech Software Solution Puducherry
Flutter Developer Intern *Aug 2024 – Nov 2025*

- Built production Flutter applications for Android and iOS with responsive, 60 FPS widget trees and clean UI.
- Configured **Firebase backend services**, including Authentication, Cloud Firestore real-time DB, and Cloud Storage.
- Integrated REST APIs, handled asynchronous data streams, and resolved platform-specific edge cases with DevTools.
- Collaborated with senior engineers on release testing, QA bug resolution, and Google Play Store deployment.

Key Production Projects

TOICE – AI Task Collaboration App | *Flutter, Socket.IO, Cashfree, Apple IAP, FCM* Android & iOS

- Architected task management system with priority filters, team collaboration workflows, and an **AI Task PRD** generator.
- Implemented low-latency real-time chat using **Socket.IO** with media uploads and delivery status indicators.
- Integrated dual subscription monetization via **Apple IAP** and **Cashfree**; configured push notifications via FCM.
- Profiled app performance via Flutter DevTools, resolved native platform build constraints, and maintained fluid 60 FPS.

SAALUVER – Patient Healthcare Platform | *Flutter, Provider, JWT, Cashfree* Android & iOS

- Built patient care modules including doctor discovery, appointment booking, lab tests, and pharmacy prescription refills.
- Integrated an intelligent **AI healthcare chatbot** for guided symptom triage and Cashfree for consultation payments.
- Configured secure session management with **JWT authentication and automated refresh token rotation** via Provider.
- Implemented laboratory test booking with digital medical reports access and pharmacy order tracking.

INTERNSHARKS – Recruitment Discovery App | *Flutter, GetX, Dio, REST API* Android & iOS

- Developed candidate and recruiter portals featuring internship vacancy posting, applicant tracking, and candidate filters.
- Architected centralized reactive state using **GetX**; built **Dio** HTTP networking with JWT interceptors and error handling.
- Implemented persistent local storage using SharedPreferences for offline session caching and user preferences.

LE PONT – Hyperlocal Delivery App | *Flutter, Google Maps API, Geolocation* Android & iOS

- Engineered on-demand pickup and delivery mobile application serving hyperlocal logistics with device GPS geolocation.
- Integrated **Google Maps API** for automated fare estimation, interactive address selection, and live route tracking timelines.
- Designed intuitive pickup/drop-off location selectors and live order status progression timelines for active deliveries.

Technical Skills

Mobile Development: Flutter, Dart, Android SDK, iOS, Material Design 3, Cupertino, Responsive UI Layouts
State & Architecture: Provider, GetX, Clean Architecture Principles, MVC
Backend & APIs: REST APIs, Dio Client, JSON, Socket.IO (WebSockets), Firebase (Auth, Firestore, Storage, FCM)
Integrations & Security: Cashfree Payment Gateway, Apple IAP, Google Maps API, JWT Authentication, Refresh Tokens, RBAC
Tools & Languages: Git, GitHub, Android Studio, VS Code, Xcode, Postman, SQLite, SharedPreferences | Java, Python
Languages Known: Tamil (Native), English (Professional Working Proficiency)

Education & Professional Training

Government Arts College, Trichy (Bharathidasan University) Tiruchirappalli, Tamil Nadu
Bachelor of Science in Chemistry (B.Sc. Chemistry) — Aggregate: 70% *Graduated*

Full Stack & Mobile Development Training (6 Months) — RelieTech, Puducherry Specialized in Flutter & Firebase
Basic Python Certification (3 Months) — CSC (Common Service Center), Tamil Nadu Core Programming Fundamentals
